Road User Portal access data (the Toll Operator's online registration portal)

Access to the Road User Portal is necessary to register your vehicles. Please indicate here whether we need to request new access data for you or can use existing login data.

LOGIN (please tick)	<input type="checkbox"/> My access data is:
User name	
Password	

<input type="checkbox"/> I do not yet have access data.
If Road User Portal access data need to be requested, our staff will contact you to discuss all further steps.

Account of deposit payment:

Until full payment of the deposit, the customer concerned undertakes to settle all toll transactions effected by means of the Viapass Box via the card account relating to specific UTA Cards issued to the customer. If it is necessary to return a Viapass Box before the entire deposit amount has been paid - in particular in the case of instalments (12 or 24 months) -, the customer is obliged to return the devices via UTA, in order to ensure the correct processing of the deposit account.

The deposit payment required by the toll company should be charged as follows in our UTA invoice:	
<input type="checkbox"/>	Non-recurring amount due (135 €/Box)
<input type="checkbox"/>	For 12 months (11.25 €/Box)
<input type="checkbox"/>	For 24 months (5.63 €/Box)

Company stamp, date and signature

With my signature on this form, I acknowledge the "UTA Viapass Premium Service Terms and Conditions". I confirm to have taken note of and agree to them. The same applies to the GTC of the Toll Operator Satellitic N.V.

UTA Viapass Premium Service Terms and Conditions

1. Services provided by UTA

1.1 In connection with the web portal provided by the operator of the Belgian toll system Viapass (hereinafter: "**Toll Operator**"), UTA shall provide the services described in the following as part of the UTA Viapass Premium Service on behalf of and by order of UTA customers, at the terms and conditions shown in the list of tariffs, the currently valid version of which is provided at www.uta.com in the exclusive customer section.

1.2 If required, UTA shall create a user account for the UTA customer at the Toll Operator's web portal and use it to register the vehicles and to order the on-board units (hereinafter: "**OBUs**") required for registration in the toll system. In addition, UTA shall on behalf of the UTA customer store and change on the web portal the UTA accounting IDs assigned to the vehicles. UTA shall receive the registration and order data provided by the UTA customer and transfer it to the Toll Operator via the web portal, supplemented by the UTA accounting IDs.

1.3 Using the web portal, UTA shall send registration data, or changes to it, provided by the UTA customer (e.g. address, VAT ID - the Belgian if available -, vehicle data) to the Toll Operator. UTA shall not check the correctness of the information received by the UTA customer. UTA shall not be obligated to change this data without being asked or to inform the UTA customer about any change required, even if UTA has received data change orders from other processes.

1.4 Moreover, UTA shall send to the Toll Operator orders of OBUs by UTA customers as well as defect and blocking notices.

1.5 The services offered by UTA within the scope of the UTA Viapass Premium Service shall include the prompt forwarding of data, orders and any notifications and applications received by the UTA customer (hereinafter collectively: "**Information**") to the Toll Operator via the web portal. UTA has no influence on the time frame within which the Toll Operator will handle the Information sent. Rather, the Toll Operator is solely responsible for completing registrations, processing orders, taking into account changes and defect/change notices and implementing blocking applications.

2. Obligations of the UTA customer

2.1 If at the time of ordering the UTA Viapass Premium Service the UTA customer already has a user account with the Toll Operator, it shall transmit the user account data to UTA.

2.2 In order to enable registration, the UTA customer shall forthwith upon placing an order provide completely and accurately all information and documents necessary for registration.

2.3 Should the Toll Operator request any additional information or documents in the registration process, the UTA customer shall promptly provide them to UTA.

2.4 Upon completion of the registration, the UTA customer shall check the correctness of the registration data and inform UTA forthwith of any change required. Furthermore, the UTA customer shall itself be responsible for ensuring that the user, vehicle and other data (including data relevant to value-added tax and billing) is up-to-date. Should any change be necessary, the UTA customer shall instruct UTA in due time to change the data.

2.5 The UTA customer shall itself retrieve any documents, information or bills provided by the Toll Operator on the web portal. Should the Toll Operator ask the UTA customer to change any registration data, the customer shall notify UTA promptly and instruct UTA to change the indicated registration data.

2.6 At first, the deposit payment in the amount of 135 € per Viapass Box will be paid by UTA. After dispatch of the Box, the total amount, or the relevant monthly instalments agreed upon (12 or 24 months) will become due. The customer concerned undertakes to settle all toll transactions effected by means of the Viapass Box via the card account relating to specific UTA Cards issued to the customer, until the entire deposit amount will have been paid.

2.7 The Viapass Box can easily and conveniently be returned via UTA. If it is necessary to return a Viapass Box before the entire deposit amount has been paid - in particular in the case of instalments (12 or 24 months) -, the customer is obliged to return the devices via UTA, in order to ensure the correct settlement of the deposit amount.

3. Limitation of liability

3.1 UTA shall be liable without limitation for any damage resulting from injury to life, body or health caused by any wilful or negligent breach of a duty by UTA. UTA shall likewise be liable without limitation for other damage caused by any wilful or grossly negligent breach of a duty by UTA.

3.2 UTA's liability for damage caused by any breach based on ordinary negligence of a duty which is fundamental to the proper and correct performance of the contract and the fulfilment of which the customer, accordingly, relies on and may rely on (material contractual obligation) shall be limited to the foreseeable damage typical for the contract.

3.3 Any other claims for damages shall be excluded subject to Section 3.4 below.

3.4 The limitations and exclusions of liability pursuant to this Section 3 shall not apply to UTA's liability under the imperative statutory provisions of the German Product Liability Act, based on fraudulent concealment of a defect or based on the assumption of a warranty for the condition of an object.

3.5 This Section 3 shall apply to any claim asserted against UTA by the UTA customer irrespective of the legal basis, in particular based on contractual and tort liability.

3.6 Where UTA's liability is limited or excluded under this Section 3, the limitations and exclusions shall likewise apply to the personal liability of the employees, legal representatives and vicarious agents of UTA.

4. Force majeure

UTA cannot be held responsible for any impediment to performance caused by circumstances lying beyond its sphere of influence. Therefore, UTA shall in particular not be liable for any damage caused to the UTA customer

- a) resulting from UTA being unable to transmit, or to transmit in due time, to the Toll Operator any data or notices of the UTA customer due to unavailability of the Toll Operator's web portal;
- b) due to the fact that the Information entered on the web portal is not, not completely or incorrectly transmitted to the Toll Operator after having been sent by UTA due to any technical or electronic fault along the transmission path;
- c) resulting from the UTA customer entering or changing data on the Toll Operator's web portal itself without agreeing this with UTA.

5. Additional application of the UTA GTC

In addition to the present terms and conditions, the valid version of UTA's General Terms and Conditions (as amended from time to time) will also be applicable, at least for as long as the current circumstances are not ruled by the present terms and conditions. A copy of UTA's valid General Terms and Conditions can be requested from UTA, or consulted or downloaded at www.uta.com.
